EDUCATION

Bachelor Of Computer Engineering Shivajirao S. Jondhale College of Engineering

08/2019 - 07/2023 8.28 CGPA

H.S.C.

Sau. Laxmibai Jr. College

08/2017 - 04/2019 65%

S.S.C.

Indian Education of Society

06/2017 75%

PROJECTS

Face Mask Detection (2022 - 2023)

- Developed an application using Python with OpenCV, Scikit-Learn, and TensorFlow to detect face mask usage in public areas.
- Implemented machine learning algorithms to identify whether individuals are wearing masks.
- Monitored and analyzed mask compliance to support adherence to COVID-19 safety regulations.
- Enhanced public health and safety by providing real-time mask usage detection.

Tiny URL (2024)

- Developed "Tiny URL" using the MERN stack (MongoDB, Express.js, React, Node.js).
- Built a URL shortening service to convert long URLs into short, shareable links.
- Implemented features for link redirection and basic analytics.
- Enhanced user experience with a straightforward interface for managing short links.

Weather Application (2024)

- Developed a weather application with an API-powered backend using React.
- Created a user-friendly interface to display real-time weather information.
- Integrated API calls to fetch and present accurate weather data.
- Ensured responsiveness and smooth performance across various devices.
